

Alexey Boiko

Front End Developer

Hello, I'm ...

Front-End developer with experience in creating SPA using React, Redux, Typescript, HTML, CSS, JS. Now I am improving my skills in this direction and expanding them with new technologies. I'm planing to study Node.js, because my next focus is to become a Full-Stack Developer. And also I have interest to learn React Native. Usually I prefer to spend my leisure time on improving my English and solve tasks on Codewars. Ready to consider project work and full-time employment.

EXPERIENCE

2022-present
